RE:    **G172    Global Safe Technologies Inc.**  
         **Surrey, British Columbia, Canada**  
         01/05/01    p3    Safe Solution Anti-Slip Floor Treatment System

This is in reference to your fax dated April 30, 2001, concerning the aforementioned anti-slip floor treatment system for which you have requested acceptance for use in federally registered food establishments.

Based on the available information, no objection would be taken to the use of the above anti-slip floor treatment system in registered establishments.

In order to avert possible adverse organoleptic effect in foods which will be processed in areas where the floor treatment system will be used, adequate precautions respecting ventilation should be taken to assure volatile constituents in the floor treatment material will not contaminate the foods.

This acceptance is not to be misconstrued as an endorsement for this or similar floor treatment systems, and their use in Registered Establishments will depend upon their continued acceptability to all concerned.

Should any changes occur either in the formulation of the floor treatment system or intended function, then this acceptance will be considered **NULL** and **VOID**.

Yours truly,

J.J. Donald
