

## About our PRIMARY FLOOR CARE SAFETY PRODUCTS...

### Clean Step™:

- ❌ Is a neutral surface cleaner and residue remover.
- ❌ Has proprietary surfactants that neutralizes and removes all other cleaner residues on the floor, so no other cleaner interferes with the Safe Solution® Anti-Slip Treatment process.
- ❌ Contains specialized surfactants, organic solvents, alkalis, and antibacterial agents, used on all surfaces and for everyday use.
- ❌ Clean Step™ is Health Canada approved.

### Safe Solution®:

- ❌ Is a deep cleaning anti-slip treatment solution.
- ❌ Contains HF and proprietary surfactants.
- ❌ Creates microscopic channeling in the tile to make the tile anti slip.
- ❌ The Safe Solution® Anti-Slip TRES™ process is CFIA approved.

## UNDERSTANDING SAFE SOLUTION® ANTI-SLIP TRES™ APPLICATIONS

### A. INITIAL ANTI-SLIP TRES™ TREATMENT:

- 1 Clean the floors with Clean Step™.
- 2 Apply Safe Solution® Anti-Slip TRES™ deep cleaner.
- 3 Apply Clean Step™ to ensure that the Safe Solution® is 100% neutralized before it goes down the drain.

**Please note:** Before providing the above treatment application, we recommend Clean Step™ to the customer to use to maintain the anti-slip treated floors, and as their everyday floor care safety cleaner.

### B. ANTI-SLIP TRES™ REJUVENATION:

>>Follow two-step process below ONLY if Clean Step™ is being used

- 1 Apply Safe Solution® Anti-Slip TRES™ deep cleaner.
- 2 Apply Clean Step™ to ensure that the Safe Solution® is 100% neutralized before it goes down the drain.

**Please note:** If Clean Step™ is not being used repeat (A.) above.

### C. POST JOB GUIDE AND INSTRUCTIONS:

- 1 Provide our post job Floor Care Safety Guide & SDS binder.
- 2 Go over cleaning instructions with the customer and with the customer's cleaning company and/or their cleaning staff.
- 3 Visit the premises regularly to ensure Clean Step™ is being used as instructed.

#### FOR POOL FACILITIES:

*We will acid-wash all surfaces with our ProCal 21™ Calcium, Lime, and Efflorescence remover, prior to the Anti-Slip Treatment application and before our follow-up Anti-Slip Rejuvenations.*

**Please note:** Always pre-check Clean Step™ usage and check to see if there are no other cleaners being used on the treated floors prior to any and all future anti-slip rejuvenations.
